Acknowledgments

Authors very much appreciated and grateful to Michel Satori, Cantonal Museum of Zoology, (Lausanne, Switzerland); Pasquale Ciliberti, EIS Knowledge Center Insects and other invertebrates, Naturalis Biodiversity Center (Leiden, the Netherlands); and Vladimir Savitsky, Moscow State University named after M.V. Lomonosov, Faculty of Biology, Research Zoological Museum (Moscow, Russia) for help securing loans providing the opportunity to study the type material of several species. Authors thank R. Edward DeWalt (University of Illinois, Illinois Natural History Survey, USA) for linguistic revision and constructive suggestions which improved the manuscript.

The research was carried out within the state assignment of the Ministry of Science and Higher Education of the Russian Federation (theme No. 121031000147-6).
